Please see attached request for full details.

EIP seeks three kinds of records related to communications between MarkWest Liberty Midstream & Resources, LLC (MarkWest) and the Agency pursuant to a 2018 consent decree. See Consent Decree, United States v. MarkWest Liberty Midstream & Resources, L.L.C., No. 2:18-cv-00520-LPL (W.D. Pa. April 24, 2018) [hereinafter Consent Decree], available at <https://www.epa.gov/sites/production/files/2018-04/documents/markwest-cd.pdf>. All records pertain to requirements that the Consent Decree has imposed on MarkWest, and specifically with respect to the Harmon Creek Monitoring Plan. Id. at 17-18, Appx. 8.

First, EIP specifically requests all final and draft versions of the Harmon Creek Monitoring Plan that MarkWest submitted to EPA, as well as any communications accompanying such submittal. See id. at 17-18.

Second, EIP requests copies of any and all comments, feedback, approval, or other notes that EPA provided to MarkWest regarding the Harmon Creek Monitoring Plan that MarkWest submitted.

Third, EIP requests copies of any and all "quarterly information reports" or "annual reports" submitted to EPA by MarkWest regarding the Harmon Creek air monitoring stations as required by the Harmon Creek Monitoring Plan. See id. at 18.

I am requesting copies of the following documents associated with EPA Registration 91234-72.

- 1) most recent data matrix file
- 2) any of the DER reviews including but not limited to physical property, toxicological and others associated with granting of this registration.

I am looking for information regarding, specific air permits, inspection reports, violation notices, leaking underground storage tanks (LUST) incidents, site remediation program enrollment, compliance reports, ground-water and soil contamination information, sampling results, and incident notices for any facility at the following address:

All inspections, reports, pictures, photos, fines, citations, letters to owners and managers, findings concerning the building located at 1350 N. Wells, Chicago, IL from 2015-2018. I am the attorney for three former tenants involved in a lawsuit concerning the habitability of that building.

Antea Group is conducting an environmental site assessment for the Conrad & Bischoff, Inc. Petroleum Bulk Facility located at 2551/2555 N Holmes Avenue, Idaho Falls, ID.

We are looking for records specific to the SPCC violation conducted in August 2009, and follow-up Notice of Violation issued by EPA in March 2010. We are specifically inquiring about the resolution of this incident, if any. Please refer to the attached document for copies of these EPA communications.

I am requesting all records of communications to EPA employees from representatives of Ford Motor Company. Please consider representatives of Ford as anyone with an email address ending in "@ford.com." The time period for the records search is Sept. 1, 2020 to the present.

REQUEST MODIFICATION

I am requesting all records of communications to certain EPA employees from representatives of Ford Motor Company. The EPA employees are Administrator Andrew Wheeler, Acting Assistant Administrator for the Office of Air and Radiation Anne Idsal, Office of Transportation and Air Quality Director Sarah Dunham, and William "Bill" Charmley of the Office of Transportation and Air Quality. Please consider representatives of Ford as anyone with an email address ending in "@ford.com." The time period for the records search is Sept. 1, 2020 to the present.

Dear FOIA Officer,

Thank you for handling this FOIA request for public records pertaining to air quality in the city of Chicago. I am seeking information including but not limited to:
US EPA data on air quality in Chicago since January 1, 2020.
US EPA air quality monitoring systems and criteria used in Chicago.

I would like these records delivered electronically in spreadsheet form, if possible, to my email listed below. This request is in the public interest and I request a fee waiver as a journalist reporting about air quality for the Medill School of Journalism at Northwestern University. If the fee waiver is denied, please contact me about the cost before completing the request. If this request presents any undue burdens, please let me know as soon as possible, as I may consider tailoring the request to expedite release of important records.

If you have any questions about this request or if I can be of assistance in any way, please do not hesitate to email me at bennettbaker2021@u.northwestern.edu.

Sincerely,
Bennett Baker

Please provide certified copies of all records related to ASBESTOS at the following locations:
 1) Puget Sound Naval Shipyard in Bremerton, WA;
 2) and Lockheed Shipbuilding in Seattle, WA.

We seek all records related to asbestos at these locations, including asbestos surveys, asbestos sampling, results of asbestos sample analysis, asbestos management plans, asbestos abatement notifications, abatement permits, violations of asbestos laws/regulations, asbestos inspections, records of asbestos contamination or release of asbestos into the environment, asbestos remediation records, and any other records of asbestos being present at these locations.

Puget Sound Naval Shipyard is also known as Puget Sound Naval Shipyard and Intermediate Maintenance Facility (PSNS & IMF). It has also been known as Navy Yard Puget Sound, Bremerton Shipyard and Bremerton Navy Yard. The shipyard is a large, multi-building facility. A common mailing address for the shipyard is 1400 Farragut Ave, Bremerton, WA 98314.

Lockheed Shipbuilding (a.k.a. Lockheed Shipbuilding and Construction Company), was a shipyard in Seattle, Washington on Harbor Island at the mouth of the Duwamish River. Founded in 1898 as the Puget Sound Bridge and Dredging Company, the company that built Harbor Island, it was purchased by Lockheed in 1959. The shipyard was permanently closed in 1988.

This request is not limited to any specific time period. This is a commercial request. We are willing to pay up to \$300 in fees. Please inform me if fees will exceed \$300. We do not seek any confidential business information—only publicly available information. Thank you. Please allow this to serve as an official Open Records request for any and all asbestos abatement records associated with the following address:

1201 Peachtree St. NE
 Atlanta, GA 30361

Our case no: 18973B

If possible, we would like any asbestos records that are available for the address, no specific years.

There is an urgency for this request. If possible, please email all available documents to pinnrequest@gmail.com. If fees are incurred, please let me know the total and I will send you payment for the request.

Kind Regards,
 Sara

				On January 13, 2020, I submitted an initial document request (EPA-R9-2020-002233). This initial request sought broad information about all failures of the inverters or Intelligent Power Modules (IPMs) in certain Toyota hybrid vehicles. Today, I am reaching out, because we have recently learned of a new recall affecting over 265,000 Toyota Prius vehicles from the 2013 through 2017 model years. The recall number is 20TA10/20TB10 (NHTSA Recall No. 20V-369).			
				We now request documents containing the below information: All Documents from 2013 to the present re the failure of inverters or Intelligent Power Modules (IPMs) in Toyota Prius vehicles from the 2013 through 2017 model years. For these requests, Documents includes, but is not limited to, all communications with Toyota (e.g. Toyota Motor Sales, Toyota Motor Corporation, and any person or entity working on behalf of either); documents received from Toyota (including presentations); documents from third parties; internal communications; communications with regulatory bodies; and all notes, research, and analyses.			
				Relevant topics include, but are not limited to, the following: All Documents concerning the 20TA10/20TB10 recall of Toyota Priuses; All Documents re the inverter or IPM installed in Toyota Priuses model years 2013 through 2017, including Documents pertaining to the recalls of the Toyota Priuses or the Warranty Enhancement Programs. This includes documents pertaining to (1) stalling events and limp-home events; and (2) post-recall inverter and IPM failures that were not captured by your prior search; All Documents re the efficacy of this Prius software re-flashes for Recall No. 20TA10/20TB10, including documents/discussions/communications evidencing the continuing failure of inverters in Toyota Priuses after the 2020 reflash, if they exist; and All Documents re any meetings between Toyota and the EPA.

EPA-2021-000423	Request	Ms. Trina Dennison	Haley & Aldrich	I am interested in how the EPA monitors methane emissions in Louisiana. Specifically at sites of interest such as landfills, dairies and waste water treatment plants. The state DEQ does not monitor the methane releases from any of these sites. What I am hoping to learn is: Is there room to improve? What is being done to monitor GHG emissions from these sources in Louisiana and in other states. Do other states monitor these emissions and what has been their findings? I'm pursuing funding to install air quality / methane monitors around out state and would like to know what I'm starting with. I am a member of Governor John Bell Edwards' Climate Task Force in one of the specialized committees and our group could benefit from this information. Any data I collect will be shared with my state DEQ Air Quality Division. I run a US Department of Energy designated Clean Cities coalition. The data will be used to help me to determine how I should proceed with a methane to renewable natural gas program statewide (waste to fuel) and to understand how big (or small) the problem of methane emissions are from these sites.	10/21/2020	Closed	10/23/2020

EPA-2021-003865	Request	Ms. Paola Camacho	Southern Environmental Law Center	Under the Freedom of Information Act, 5 U.S.C. Â§ 552, I am requesting to obtain information regarding the following record: The Environmental Protection Agency has included petroleum refineries in its Energy Star Program. The process for awarding Energy Star designations is based on "Energy Intensity Index" data that is delivered by a third party company called Solomon. I am seeking information regarding the Energy Star Award given to Marathon Petroleum Company's petroleum refinery located in Garyville, LA. I would like to request copies of the items listed below as they pertain to the 2020 Energy Star Award given to the Marathon Petroleum Company's refinery located in Garyville, LA: 1. The refinery's application materials, including any Energy Intensity Index data (whether provided by the refinery directly or by Solomon adjacently), 2. The Professional Engineer's Verification Checklist (along with all supporting documentation and data that would serve as the basis for that engineer's review), 3. Any assessment the EPA does of those materials, 4. Any assessment the EPA does of the refinery operations directly, 5. The criteria by which the EPA makes those assessments, 6. Any records that the EPA has requested of the company in the past five years, outside of the application itself, related to their energy performance or Energy Star certification (as the EPA notes may happen from time to time): "EPA reserves the right to request and review any records which support the data used to produce the energy performance score for a plant. Therefore, corporate energy managers must maintain a formal certification file for each plant for which EPA has awarded the ENERGY STAR certification. The formal certification file must be maintained for five years."	4/21/2021	Closed	4/30/2021

EPA-R4-2021-004162	Request	Mr. Bela Varga	National Park Service	Hello, During a recent Site Inspection on Cumberland Island, the consultant (BBJ Group) requested a FOIA (Tracking # EPA-R4-2021-000895) for any USEPA Region 4 documents that could be pertaining to USEPA activity on Cumberland Island in the area known locally as the Beach Field Disposal area. There was illegal dumping activities reported in the area, and according to PA/SI it was reported that there was supposedly some USEPA activity on the island when illegal dumping activities were first identified in the 1970s. Attached is a list of documents that were shown to be located in the offsite Federal Records Center (FRC) that were unavailable for access due to COVID-19. There may also be some other documents other than those listed in the attachment, but those were the preliminary documents identified before the FOIA was withdrawn due to FRCs being indefinitely closed. In order to formally close out the investigation in the Beach Field area, NPS will need to review of any relevant documents in the FRC. Please see attachment for Globe-Union Battery, Garland, Texas, regarding Section 104(e) parties.	5/6/2021	Closed	5/19/2021

I'm looking to obtain all public drinking water system chemical/radiological sample results across all public water systems for the prior 10 year period (e.g. 2011-2020; starting with most recent month for which you have data, going backwards 10 years) and all biological/coliform sample results across all public water systems for the prior one year period in *Wyoming* and *South Dakota* from EPA Region 8 SDWIS administrator.

Columns of interest: sample ID (TSASAMPL.LAB_ASGND_ID_NUM), PWSID (TINWSYS.NUMBER0), sample date (e.g. TSASAMPL.COLLECTION_END_DT), result concentration (TSASAR.CONCENTRATION_MSR), unit (TSASAR.UOM_CODE), less than indicator (TSASAR.LESS_THAN_IND), detection limit (TSASAR.DETECTN_LIMIT_NUM), detection limit unit (TSASAR.DETECTN_LIM_UOM_CD), less than code (TSASAR.LESS_THAN_CODE), analyte code (TSAANLYT.CODE), analyte name (TSAANLYT.NAME), sample type code (TSASAMPL.TYPE_CODE), sample point type (TSASMPPT.TYPE_CODE), TSASMPPT.SOURCE_TYPE_CODE (source type code, e.g is it FN or RW ?), facility type code (TINWSF.TYPE_CODE), facility id (TINWSF.ST_ASGN_IDENT_CD).

If there are any additional crosswalk tables to explain any codes used in columns, that would be very useful. I can provide a link for data uploads if email cannot handle the file size. I am only looking for electronic records stored in a database.

EPA-R5-2021-004688	Request	Barbara Miron	Marshall Associates	I'm looking for information on an incident that occurred in June 1981 whereby a US ship attempted to enter Oakland Bay with hazardous materials and was stopped by the US Coast Guard and fined. I thought because it was in the area covered by Region 9 there may be an EPA record of the incident. I'm willing to pay a reasonable fee for a copy of any documentation found on this incident. I believe the ship stopped with the Hazardous materials was a US ship, the Joplin Victory. I'm not sure the ship is correct. It was coming from South Korea via Japan. The ship contained chemicals that would normally be required to be permitted, or a waiver obtained, thru the EPA to be disposed of in the US. Supposedly, this incident was used as a case study for a Coast Guard training seminar in San Diego. The Coast Guard had stopped the ship, perhaps receiving a tip, and secured the hazmat for proper authorities and fined the owner/ manager Matson for not following protocol	6/1/2021	Closed	6/23/2021

Hello,

Through this request, I would like to obtain polygon boundary coverages of all National Priority List (final, deleted and proposed) sites in Region 5. ArclInfo Export or Shapefile format or geodatabase format.

I would like:

Operable Unit Polygons: The OU polygons represent an individual OU's perimeters, which are used to identify a portion of a Superfund site with which assessment and response actions are associated

Total Site Polygon: The total site polygon represents the footprint of a whole site, defined as the sum of all of the OUs and the current understanding of the full extent of contamination

Please let me know

Thank you,

EPA-R2-2021-003247 Request Dr. Christopher Sellers Stony Brook University 3/19/2021 Closed 8/4/2021

This request is in regards to implementation of and compliance with "40 CFR Part 80, RFS Renewable Identification Number (RIN) Quality Assurance Program; Final Rule" or the most recent regulation that is in force and applies to the subject matter of this Final Rule and the requests below.

Specifically, I am requesting:

1. A copy of EPA approved and currently used "Quality Assurance Plans/Pathways" for 3 active QAP Providers. EPA staff can choose which three to provide.
2. A list of all renewable fuel producer companies that have active registrations with this compliance database and includes (1) company name, (2) company EPA identification number, (3) company address, (4) name of responsible corporate officer to be contacted at the company related to this program, (5) email address and phone (if both available) for the named responsible corporate officer.
3. For the most recent quarter of available data (Q4 of 2020 as a default), please provide a copy of all reports submitted by QAP Providers to the EPA (Presumably this is through the EMTS/OTAQREG database) to establish the compliance of associated renewable fuel producer companies with the requirements of this regulation.

The intention of the three requests above is that staff responding to this FOIA request are not required to create a new document, but merely copy/assemble records that already exist. Thank you for your assistance.

Hello,

I work for the Baker Institute. We are working on research on circular economy and recycling of e-waste and, in particular, EV batteries to designing policies to help recycle those items. We need to understand what is being done to the waste to suggest recommendations based on data.

I want to get the data for Domestic shipment via Manifest or bill of lading (destination, Kg, \$) from 2000 to 2020 for all the following UN numbers of hazardous waste:
UN3171; UN 3476; UN 3477; UN 3478; UN 3479; UN3536; UN3480; UN3481; UN3090;
UN3091

Thank you,

I am trying to find out some additional information for a site located at 1872 Banks Road in Fort Mill, South Carolina 29715. We are conducting a phase I environmental site assessment for this property and this site showed up as a State Hazardous Waste Site with an EPA ID of SCS123457182. We reached out to the South Carolina Department of Health and Environmental Control, and they have no information for this site. Any information that could be provided for this site would be very appreciated. Site info below.

(Marietta, Ohio, facility ID 8130711) Mn (poll ID 7439965) emissions data for 2008-2013 for use in my doctoral dissertation. I used AERMOD to model air Mn exposure for a cohort of children aged 7-9 years enrolled from 2008-2013 who had soil and house dust Mn, blood, hair, and toenail Mn, and neurological outcomes measured. We modeled annual air Mn for each child for the year of enrollment. We would now like to use AERMOD to model lifetime exposure for those children (including in utero), which will require Eramet emissions data for the years 1998-2007, and 2014-2019 (or as recent as possible). The children are now 14-21 years old and are still being followed for neurological outcomes. We would like to request, if possible, the emissions data for these additional 16 years. We previously received an excel spreadsheet with the following variables (excel file is attached):

Act System of records EPA-9 for FOIA/PA Request EPA-2021-000337; and FOIA Appeals EPA-2021-002012 and EPA-2021-002054.

Must include everything in FOIAonline internal and external who created the request and appeals, all notes, comment, emails, tasks etc, the entire FOIAonline record. Everything associated with this request and appeals contained in FOIAonline Privacy Act System of Records EPA-9.

Therefore, EPA system manager Tim Crawford must provide a Privacy Act search of EPA-9 for ALL FOIAonline internal and external records for this FOIA request and two FOIA Appeals.

The EPA must process this request under both FOIA and Privacy Act.

The EPA stated as facts to the Department of Justice (DOJ) in the EPA FOIA Annual report with associated raw data regarding EPA FOIA request including EPA processed all first-party FOIA as both FOIA and Privacy Act requests for greater access to records like many filed by James Chelmowski:

g. FOIA Request - a FOIA request is generally a request to a federal agency for access to records concerning another person (i.e., a "third-party" request), or concerning an organization, or a particular topic of interest. FOIA requests also include requests made by requesters seeking records concerning themselves (i.e., "firstparty" requests) when those requesters are not subject to the Privacy Act, such as non-U.S. citizens. Moreover, because all first-party requesters should be afforded the benefit of both the access provisions of the FOIA as well as those of the Privacy Act, FOIA requests also include any first-party requests where an agency determines that it must search beyond its Privacy Act "systems of records" or where a Privacy Act exemption applies, and the agency looks to FOIA to afford I am looking for documentation regarding KII's submission of Final Report of A.D. This is a request under the Freedom of Information Act, 5 U.S.C. Â§ 552. On behalf of the Clean Water Partnership - Cannon (CWP-Cannon), I request that copies of the following documents be produced to CWP-Cannon within twenty (20) business days:

- Any and all information related to the investigation, development or production of a standard or the scientific determination of a standard for PFOA and/or PFOA in any food or beverage including raw agricultural commodities, including but not limited to the following:
 - Drinking Water
 - Corn
 - Sorghum
 - Wheat
 - Soybeans
 - Dairy Milk
 - Other milk products
 - Beef
 - Pork
 - Eggs and Poultry
 - Lamb

This list is not designed to be exhaustive, but rather suggestive of raw commodities for which a scientific standard may have been investigated or developed.

- Any and all communications with the U.S. Department of Agriculture, the U.S. Food & Drug Administration, the U.S. Department of Defense (or any Service branch thereof) or another federal agency concerning the establishment of a scientifically determined standard for PFOA and/or PFOS in drinking water, agricultural water or any raw agricultural commodity. As used in this FOIA request, the term PFOA refers to perfluorooctanoic acid or polyfluorooctanoic acid and the term PFOS refers to perfluorooctanesulfonic acid or polyfluorooctanesulfonic acid and each term refers to the entire family of manufactured perfluorochemicals (PFCs) and byproducts thereof used to make fluoropolymer coatings, AFFF (Aqueous Film-Forming Foam) products used in fire-fighting activities and other products that resist heat, oil, stains, grease, and water. Please note that CWP-Cannon is a non-profit organization requesting this information in order to benefit the public interest by increasing understanding of the government's operations and activities pursuant to 5 U.S.C. Â§ 552(a)(4)(A)(iii). Accordingly, CWP-Cannon is entitled to a waiver of all costs associated with the EPA's response.

I am requesting a copy of the Disclosure or Conflict of Interest Statement for each of the panel members who were part of the Peer Review of EPA Draft Risk Evaluation of Asbestos dated June 8-11, 2020. In particular, I would like to begin requesting this information for Dr. Craig Rowlands.

In addition, I am requesting copies of the email correspondence from Dr. Craig Rowlands to the Chairman Kenneth Portier and Diana Wong, the Designated Federal Official, regarding the EPA proposed Risk Assessment for Asbestos. My request extends from the dates which the panel was notified about their participation in this activity (beginning about March 2020) until the end of the deliberations and writing of the final report which was sent to the administrator June 8 - 11, 2020.

EPA-2021-001137	Request	Edmund Crouch		The report cited by IARC as EPA (1991c) in their monograph on Glyphosate (https://publications.iarc.fr/549). That citation is: "EPA (1991c). Peer review on glyphosate. Document No. 008527. Washington (DC): Office of Pesticides and Toxic Substances, United States Environmental Protection Agency." It is not accompanied by a link, as are all the other such citations to EPA documents (the links are now out-of-date, but the materials linked to are available in the EPA archive at https://archive.epa.gov/pesticides/chemicalsearch/chemical/foia/web/html/103601.html). The document I am requesting is not included in that archive page (although the other cited documents are). This is apparently a FIRST peer review of glyphosate, as opposed to the SECOND peer review, which is available (it is 103601-265 on that archive page). I cannot find the IARC-cited EPA (1991c) document anywhere on the EPA web site (or in the archive). I suspect the citation may be to a "Tox review 008527" (rather than "Document No. 008527") which would place the timing somewhere between June 03 1991 and June 26 1991 based on the material on that EPA archive page.	11/25/2020	Closed	12/1/2020

Online research has determined that groundwater monitoring was conducted at the Scales Road Landfill site on a semi-annual basis from December 1997 until its closure in December 2003. In April 2018, EPD contracted with Oasis Construction Services, Inc. to provide continued environmental monitoring and post-closure maintenance. Work completed in FY 2018 under this contract included groundwater and methane sampling and analysis, monitoring network maintenance and redevelopment, and performing final cover maintenance and site security.	9/13/2021	Closed	9/16/2021

February 11, 2021 Submitted FOIA via EPA's FOIA On-line Portal

Team Environmental Consultants, Inc. (TEAM) is conducting a Phase I Environmental Site Assessment (ESA) of a commercial property located at 223 Quaker Road (aka 2 Quaker Rd) in Pomona (Town of Haverstraw), Rockland County, New York. The property is currently owned by 223 Quaker Equities LLC. Site tenants have reportedly included Barr Laboratories, Teva Pharmaceuticals, and Midland Processing.

Review of a federal/state environmental database indicated that the property (Barr Laboratories and Teva Pharmaceuticals) was identified in the MANIFEST, RCRA-LQG (EPA I.D. No. NYD044837086), FINDS (Registry ID. No. 110070754055), SEMS-ARCHIVE/NFRAP (Site I.D. No. 0201543, FIPS Code 36087, & EPA I.D. No. NYD044837086), SPILLS, AST and UST (PBS I.D. No. 3-990454), and US Airs Databases. The site (Midland Processing) was also identified in the HSWDS Database (EPA I.D. No. NYD044837086). Identified NYSDEC Spill Numbers issued to the site included 89-02446, 94-12658, 06-02504, 13-02781, and 17-07295.

TEAM requests USEPA records for the subject site concerning any EPA involvement, spill events, inspections, compliance issues, violations, tank installations/closures, site investigations, remedial activities, hazardous and solid waste, water quality information, subsurface disposal systems, drywell or floor drain closures, water supply wells, law enforcement, permits, etc.

As our Client is under a tight time-frame, any effort to expedite this FOIL request would be greatly appreciated. Thank you!

I would like any records regarding Norfolk Southern Railway at the rail shop locations listed below and on any lines connecting the shops, as well as any violations in the State of Virginia, the District of Columbia and West Virginia. I am looking for any information regarding any spill, ground contamination, water table contamination or other issues related to chemicals used at the Norfolk Southern shops including solvents, diesel fuel, degreasers, mineral spirits, herbicides or pesticides or any other chemical substances. And if there are any violations, whether the sites have been designated as either a Superfund or Brownsfield site and the steps taken by Norfolk Southern. The shop locations are listed below:

- 1120 W. Washington Street, Greenville, SC 29601
- 7525 Asheville Hwy., Spartanburg, SC 29303
- 133 New Cut Road, Spartanburg, SC 29301
- 100 International Commerce Blvd., Greer, SC 29651

I do not have specific locations in Virginia, D. C., West Virginia, Tennessee or Georgia but if I need to pin down the specific locations, I will try. Our client worked as a track repairman from D.C. to Florida so sites are many and varied.

Thank you for your assistance in this matter.

Re: Freedom of Information Request
 1 S Broadway
 Section 4.130, Block 139, Lot 1.1
 Hastings on Hudson, New York
 Langan Project No. 190069701
 Dear Sir or Madam:

Pursuant to the Federal Freedom of Information Act (5 U.S.C 552 et seq.) dealing with the examination and duplication of documents maintained by public agencies, Langan is requesting any information or copies of files regarding environmental conditions on the above property, such as environmental permits, notices of violations, spill/discharge incidents, storage or disposal of hazardous substances, Underground Storage Tanks (USTs), Leaking Underground Storage Tanks (LTANKs), asbestos abatement, and any other environmental reports that your department may have.

The Subject Property is located at 1 South Broadway in Hastings on Hudson, New York. The Subject Property is identified as Section 4.130, Block 139, Lot 1.1. The Subject Property is bound to the north by residential and institutional buildings; to the east by South Broadway followed by institutional buildings; to the south by a vacant property and Dudley Street followed by a public park and commercial and retail buildings; and, to the west by a public park.

To Whom It May Concern:

I am looking for information regarding, specific air permits, inspection reports, violation notices, annual emissions reports, asbestos information, leaking underground storage tanks, site remediation program enrollment, compliance reports, ground-water information, sampling results, complaints, and incident notices for any facility at the following address:

301 Anderson Drive, Fairfax, Virginia;

I believe this address is currently occupied by the Amberleigh Apartment Complex and has been assigned the Fairfax County, VA Parcel Identification Numbers (PINs): 0494 01 0057B and 0592 01 0001F. If it is possible to locate and provide any information for the aforementioned site, I would appreciate it.

Thank you for your time.

FRS: 110001894326

I request a copy of the following non-confidential report.

Enforcement Analytical Method: Goldshield 75. The Master Record ID is 47197401 and it can be found in the registration jacket for EPA Registration No. 85556-2.

This request is for multiple animal studies that evaluated the toxicity of cobalt. Few studies were identified from National Technical Reports Library, and the HPV Challenge Program. Additionally, the HPVIS document (201-15338) submitted by MorningStar Consulting Inc. for cobalt naphthenate (CASRN 61789-51-3) contains relevant studies. These studies will contribute to the evaluation and synthesis of the science on the toxicity of cobalt for the ATSDR Toxicological Profile on nitrophenols that is currently being updated. Abt Associates is providing contractor to support to ATSDR in developing this profile and is therefore submitting this FOIA request to provide a product that will contribute to the public understanding of the toxicity of cobalt. We are requesting the full texts of the following studies or an EPA evaluation record of the studies listed below in the attachment.

EPA-2021-001827	Request	Dr. Kevin M Crofton		This request is made on behalf of myself under the Freedom of Information Act (â€œFOIAâ€œ) 5 U.S.C. Â§ 552. I am currently a developmental neurotoxicologist and private citizen working on a project that aims to support the transition from animal-based testing to the use of alternative non-animal testing methods for assessing the potential developmental neurotoxicity hazards of chemicals. I have conducted research in the area of developmental neurotoxicity for more than 40 years. My publication record includes more than 150 peer-reviewed journal articles, book chapters, and government reports (e.g., ORCID ID: 0000-0003-1749-9971). The overall goals of this project are to: 1) facilitate the development of non-animal alternative models for development neurotoxicity by informing the comparison to in vivo results from regulatory driven testing; and, 2) make the data and findings publicly available by publication in a peer reviewed journal or other publicly accessible format. I note that this goal is in line with the Administrator Wheelerâ€™s statement on 09/10/2019 to reduce animal testing by 30% in 2025. Subsequent to my previous request (FOIA request EPA-2020-003946) for a list of all Developmental Neurotoxicity Studies that have been submitted to the Office of Pesticide Products, I am now requesting copies of the Data Evaluation Records/Reviews (DERs) for the specific studies in the attached. I have provided both an MRID number as well as a Citation Reference. If the request for fee waiver is denied and fees are expected to exceed \$25.00, kindly notify me by telephone to this effect before this disclosure request is processed. If you have any questions pertaining to any aspect of this request, please call me at 1-919-806-9316 or email me at croftonwork@outlook.com.	1/5/2021	Closed	3/26/2021

We submit this request pursuant to the Freedom of Information Act, and request that a copy of the following documents (or documents containing the following information) be provided to us within twenty (20) days, pursuant to 5 U.S.C. Â§ 552(a)(6)(A)(ii):

Any and all "Document" or "Documents" (as defined below), correspondences, emails, electronic communications, instant messages, interoffice communications, and letters (including any attachments or enclosures thereto), in the EPA's possession, custody, or control, including, but not limited to, those records located in EPA File No. IAD 984569093, from March 1, 2020, through the present date. This request includes all Documents and/or records that EPA has received from external sources, including any and all correspondence related to (1) EPA's CERCLA 104(e) Information Requests and (2) EPA's proposed Administrative Settlement Agreement and Order on Consent, CERCLA Docket No. 07-2020-0089, from March 1, 2020 through the present date.

"Document" or "Documents" means, without limiting its generality, any physical thing containing information or any written, recorded, graphic or other matter (whether produced, printed, reproduced, or stored on paper, cards, tapes, disks, belts, charges, film, computer storage devices or any other medium) and includes all charts, communications, correspondences, diaries, diagrams, drawings, drafts, electronic data, emails, facsimiles, graphs, lab reports, journals, letters, maps, memorandums, notes, notices, photographs, press releases, raw data, records, reports, statements, studies, tests, testing data, or any other tangible item.

Dear Officer,

I hope you are doing well and safe.

I am a Ph.D. student working on a research project about the EPA Cleaner Trucks Initiatives and I am very interested in the dataset of SmartWay Designed Trailers and Trucks. I am writing wondering if I can request the datasets of the owners/operators of a tractor/ trailer that meets the EPA-designed SmartWay specification. The requested information may include but not limited to, the company id(names), fleet size, registered state and county, operating states and county, vehicle information(model, year, engine, emission reduction technology, etc.). Thank you very much.

I am looking forward to your reply.

Best,

All records relating to the entity Highâ€™s of Baltimore, Incorporated in connection with the 68th Street Superfund Site (or the 68th Street â€œDump Siteâ€) in Baltimore, Maryland, including any request for information by EPA and any response thereto. In May 2020, EPA produced various records in response to FOIA Online Request No. EPA-R4-2020-004425, including the attached agenda and student roster for the June 2019 RCRA Permit Writers Training Course that EPA Reg. 4 hosted. As demonstrated by the last two attachments, EPA Reg. 4 was scheduled to host the same training course in August 2020, but converted it to web-based training due to Covid-19. At least one of the scheduled instructors retired before the August 2020 class. I request copies of the final agenda (identifying the actual instructors for the sessions) and student roster for the August 2020 RCRA Permit Writers Training Course. In the event the web-based training sessions were taped / recorded, I also request copies of the recordings for Session Nos. 2, 4, 5, 7, 8 and 10. Thank you.

RE: FOIA Request about Muscogee Nation meat processing and wastewater treatment facility located in Okmulgee County, Oklahoma;

Dear Sir or Madam:

Pursuant to U.S.C. Â§ 552(a), we request the following records:

1. All records relevant to the initial request (EPA-R6-2021-003043) from May 7, 2021, to present.
2. All permits issued to the Muscogee Nation for, including but not limited to, construction and operation of a meat processing plant and/or a wastewater treatment facility in Okmulgee County, Oklahoma located in Section 2-15N-12E.
3. All records related to permit inquiries, discussions, applications, and issued permits by and to, including but not limited to, the Muscogee Nation, the Looped Square Meet Company, and the Muscogee Nation Natural Resources Department from January 2020 to present.

Please contact EENR at 918-764-8984 if you have any questions concerning these requests.

Sincerely,
Madison G. Rogers

Dear Coordinator:

Under the Freedom of Information Act, 5 U.S.C. subsection 552, I am requesting information or records on Allen Okechukwu Caudle. This request is in a matter of safety and if the request is usually to be denied because of law. I second the any reason for denial in stating that by not providing information in regards to my situation will result in my safety being jeopardized. If I'm the subject of any on going matter or operation involving other agencies or operatives please advise. If you're unable to provide specifics please confirm or deny the existence of any information regarding me as the subject matter.

If there are any fees for searching for, reviewing, or copying the records, please notify me before processing if the amount exceeds \$1,000,000 (dollar amount preference).

If you deny all or any part of this request, please cite each specific exemption you think justifies your refusal to release the information and notify me of appeal procedures available under the law.

We would like a copy of this report that was prepared for the U.S. Environmental Agency in 2013: Sedflume analysis data report Newark Bay, NJ. We found the citation in two places that seem to indicate that is was done for the EPA in Santa Cruz, CA.

Please provide any environmental information including USTs, ASTs, LUSTs, spills, etc. for the following addresses in Northbrook, IL 60062:

- 1544 Shermer Road,
- 1657 Shermer Road,
- 1685 Shermer Road,
- 1707 Shermer Road,
- 1777 Shermer Road,
- 1825 Shermer Road,
- 1975 Shermer Road,
- 2045 Shermer Road,
- 1925 Techny Road,
- 1998 Willow Road,
- 2701 Shermer Road,
- 1366 Shermer Road,
- 1999 Willow Road,
- 2301 Shermer Road, and
- 2525 Shermer Road.

In addition, any possible environmental information (i.e. spills) associated with the intersections of:

- Shermer and Willow Roads,
- Shermer and Walter Roads,
- Shermer and Illinois Roads, and
- the section of street associated with 2545 Shermer Road.

As an aside, it appears many entries, especially for Shermer Road, do not seem to be consistent in naming the road a street, drive, or road. Also, sometime between 1924 and 1950, what is now Shermer Road was changed from State Road to Shermer Road.

To Whom It May Concern:

I am looking for information regarding, specific air permits, inspection reports, violation notices, annual emissions reports, asbestos information, leaking underground storage tanks, site remediation program enrollment, compliance reports, ground-water information, sampling results, complaints, and incident notices for any facility at the following addresses:

100, 106, 275, and 289 Cutlass Loop,
Rayne, Louisiana
Acadia Parish Assessor Parcel Numbers: 0100108680, 0100171705A, 0100171705, and 0100133400

I understand that the Subject Property operated as a former FlowChem chemical blending facility from approximately 2004 to 2018, which included an above ground tank farm. Reportedly, in 2018, a chemical fire occurred during chemical transfer operations, and the fire spread from the former blending facility to the concrete staging pad used for chemical storage. If it is possible to locate and provide any information for the aforementioned site and any records regarding the chemical fire that occurred in 2018, I would appreciate it.

Greetings, I am requesting copies of comments to EPA's proposed Guidance for implementing the Supreme Court's "County of Maui" decision (Docket EPA-HQ-OW-2020-0673) that use the term "reasonable potential." Background: On January 14, 2021, EPA issued a "Summary of Responses to Major Concerns and Comments ..." document (EPA-HQ-OW-2020-0673-0126) regarding its Guidance described above. On page 3 of that "Summary of Responses" document, EPA stated "Some commenters asserted that if a discharge of pollutants that travels through groundwater and reaches a water of the United States has any effect on water quality or if a discharge has a reasonable potential (RP) to cause or contribute to a violation of water quality standards, an NPDES permit should be required." I am attaching a copy of the "Summary of Responses ..." document with the relevant portion highlighted on page 3. The Docket indicates 4,475 comments were received; however, the actual comments themselves were not published. Again, I am only interested in comments that use the term "reasonable potential."	9/21/2021	Closed	9/25/2021

				Hello, BBJ Group is requesting USEPA Region 4 for any documentation that may have been filed by USEPA in regards to any activities that have occurred at Cumberland Island, GA, to assist in the creation of a Site Investigation Report on behalf of NPS. The Site Investigation report will be the driver to see if there is need for an EE/CA to facilitate remediation. According to National Park Service (NPS) staff, there may have been some USEPA activity on the island when illegal dumping activities were first identified in the 1990s/early 2000s. We appreciate the assistance in finding any documents.

Hello,

Through this request, I would like to obtain polygon boundary coverages of all National Priority List (final, deleted and proposed) sites in Region 2. ArcInfo Export or Shapefile format or geodatabase format.

I would like:

Operable Unit Polygons: The OU polygons represent an individual OU's perimeters, which are used to identify a portion of a Superfund site with which assessment and response actions are associated

Total Site Polygon: The total site polygon represents the footprint of a whole site, defined as the sum of all of the OUs and the current understanding of the full extent of contamination

Please let me know

We are conducting a Phase I Environmental Site Assessment at a property in Corona, CA.

The property is associated with the following address and APN:
 The Northwest Intersection of Mayhew Road and Orange Grove Place (APNs 290-050-20, 290-050-23)

We are interested in obtaining documents, specifically RCRA and CERCLA documents. For the purpose of this request, environmental records would include underground storage tank, aboveground storage tank, and/or other environmental permits; enforcement orders; and reports and correspondence related to site investigation/assessment, soil sampling, monitoring, cleanup/remediation, removal actions, closures, or any records related to conditions in air, soil, surface water, groundwater, or other environmental media.

Can you please notify us if you have any records?

Thank you,

I request the withdrawal of the EPA general counsel's memorandum that "adopted an unacceptably narrow interpretation of the [EPA Office of Inspector General's] authority to access information and interview Agency personnel."

This record is described in the following excerpt of the EPA OIG's Oct. 1, 2020 "March 31, 2021 semiannual report, Report No. EPA-350-R-21-001, released on June 1, 2021 (please see page 11 of https://www.epa.gov/sites/production/files/2021-05/documents/_epaig_202105-epa-350-r-21-001-_may_19_2021.pdf):

"In our Semiannual Report to Congress published one year ago in May 2020 (Report No. EPA-350-R-20-001), we recounted our issuance of a 'Seven-Day Letter' to the EPA administrator, which identified a senior Agency official's refusal to participate in investigation and audit interviews as interference with the OIG's independence. Then-Administrator Andrew Wheeler sent the Seven-Day Letter to Congress, accompanied by a memorandum from the EPA general counsel, which adopted an unacceptably narrow interpretation of the OIG's authority to access information and interview Agency personnel. Three committee chairs in the U.S. House of Representatives subsequently urged the Agency to withdraw the general counsel's memorandum, observing that, 'if accepted, [it] would eviscerate the authority of the Inspector General and undermine the ability of EPA to function in a transparent manner.' As noted in the subsequent Semiannual Report to Congress published November 2020 (Report No. EPA-350-R-20-002), if left in place, this memorandum would signal to EPA employees that they do not need to fully cooperate with the OIG in the pursuit of its mission to detect and prevent fraud, waste, and abuse. Although the Agency did not withdraw the general counsel's memorandum during the semiannual reporting period ending March 31, 2021, the Agency's acting general counsel withdrew the memorandum in April 2021."

On February 25, 1976, the United States Environmental Protection Agency (â€œEPAâ€) published its Final Report titled â€œPCBs in the United States Industrial Use and Environmental Distributionâ€ the â€œReportâ€). A copy of the Report's title page and abstract is attached to this letter to aid in this request. A copy of the full Report (total of 485 pages) can be provided if that would be helpful.

The Report notes that Monsanto Industrial Chemicals Corp. (aka â€œMonsanto,â€ â€œMonsanto Co.,â€ â€œMonsanto Industrial Chemicals Co.,â€ â€œMonsanto Industrial Chemical Co.,â€ â€œMonsanto Chemical Co.,â€ hereinafter referred to as â€œMonsantoâ€) was the sole domestic producer of PCBs in the four years preceding the publication of the Report. The Report references information provided to the EPA by Monsanto throughout the document.

We are submitting a Freedom of Information Act request for the following information:

1. All submissions by Monsanto to the EPA that were considered and/or relied upon in drafting and publishing the Report (â€œPCBs in the United States Industrial Use and Environmental Distribution,â€ Feb. 25, 1976).

If access to the records requested will take longer than the twenty (20) days prescribed at 5 U.S.C. Â§ 552(a)(6)(A), please contact us with information about when we might expect copies or the ability to inspect the requested records.

If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available under the law.

Our case no: 18973B

If possible, we would like any asbestos records that are available for the address, no specific years.

There is an urgency for this request. If possible, please email all available documents to pinnrequest@gmail.com. If fees are incurred, please let me know the total and I will send you payment for the request.

Kind Regards,
Sara

				As part of my research on the Superfund Program at American University, I have been researching the impact of liable party work agreements on the duration of Remedial Investigations and Feasibility Studies (RI/FS). A key variable is RI/FS cost, and, to my knowledge, there is no comprehensive, publicly available data for funds spent by EPA (or by liable parties) on RI/FS.			
				Thus, I am requesting the release of the following data:			
				1. Any internal database that tracks the cost of fund-lead RI/FS at all sites currently, or previously, on the National Priorities List. 2. Any internal database that tracks the cost of Potentially Responsible Party (PRP)-lead RI/FS work at sites currently, or previously on the National Priorities List 3. Any internal database that tracks the *estimated future cost* of fund-lead RI/FS work at sites currently, or previously, on the National Priorities List. 4. Any internal database that tracks the *estimated future cost* of PRP-lead RI/FS work at sites currently, or previously, on the National Priorities List.			
				If no such databases exist, please provide more information on how RI/FS cost data can be attained, whether at the site level or the EPA Regional level.

Modified to correct an error: "Any correspondence between MOUNTAIN VALLEY PIPELINE, LLC and the U.S. Environmental Protection Agency regarding insurance coverage."

On behalf of Public Citizen, Inc., and pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. Â§ 552, I request:

1. All records related to insurance and other liability coverage for MOUNTAIN VALLEY PIPELINE, LLC, including but not limited to a Certificate of Insurance, Certificate of Liability Insurance, Certificate of Coverage, Contingent Liability, Pollution Liability, Surplus Insurance, Builders' Risk, General Liability 4 Policy, or Financial Assurances.

2. Any correspondence between MOUNTAIN VALLEY PIPELINE, LLC and the U.S. Environmental Protection Agency regarding insurance coverage.

This request applies to all records created from August 22, 2014 through the date of search, and is not limited to any office or sub-agency with EPA.

If it is your position that responsive records exist but that those records (or portions of those records) are exempt from disclosures, please identify the records that are being withheld and state the basis for the denial for each record being withheld. In addition, please provide the nonexempt portions of the records. Public Citizen seeks each record in its entirety. Accordingly, please do not redact portions of any records as "non-responsive," "out of scope," or the like. Furthermore, Public Citizen request the entire document containing the responsive information, including any and all information in the document that the agency may consider "non-responsive."

I request that any records produced in response to this request be provided in electronic form wherever possible.

Dear Sir or Madam,

Pursuant to the statutes regarding public information, I am inquiring to whether you can provide the following information:

1. A copy of any records showing the (i) payee or vendor names, (ii) check issue dates, (iii) check number, (iv) FEIN and (v) dollar amounts of any uncashed /stale-dated vendor payment checks that have aged/been issued more than six months from the date of this letter in an amount equal to or greater than one thousand dollars (\$1,000.00).
2. For the above request please include all the necessary claim forms, affidavits and instructions required for the reissuance of the deposits/outstanding/stale dated checks or refunds.
3. At what frequency are these records updated? Monthly, quarterly, semiannually, annually or upon request? Please confirm, if uncashed checks are remitted to state unclaimed property bureau. If so, after what aging period?

Thank you in advance for your assistance with this request.

Pursuant to FOIA, I am interested in obtaining copies of files related to potential product/part issues with recent BMW vehicles.

Specifically, please provide me with copiesâ€”ideally by e-mailing me electronic filesâ€”of any notifications, correspondence, or agreements between BMW (Bayerische Motoren Werke AG or its affiliates) and the EPA, particularly the EPAâ€™s Office of Transportation and Air Quality, (including representatives for your agency such as the Department of Justice) related to a potential recall, warranty extension, or consumer notification for BMW vehicles from model years 2016, 2017, 2018, 2019, or 2020.

In particular, I am interested in any documents or communications regarding the AKKS radiator grill active air flaps for BMW G12 (N63R engines) and G30 (B58M engines) motor vehicles.

Please contact me, by phone or e-mail, with any questions or concerns, especially if I can clarify or potentially narrow this request to identify the most relevant information.

Thank you,
Paul

Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. 552, I am requesting copies of and/or access to records held by the U.S. Environmental Protection Agency (USEPA).

Specifically, I am requesting the release of documentation associated with a July 15, 1982 petition by American Hoechst Corporation to USEPA for exemption from the polychlorinated biphenyl (PCB) manufacturing ban imposed by section 6(e)(3)(A) of the Toxic Substances Control Act (TCSA), submitted pursuant to 40 CFR 750.

As described in the attached September 20, 1984 letter from American Hoescht Corporation to USEPA's Office of Toxic Substances (Attachment 1), I am specifically requesting a copy of the original petition and any associated supporting documentation submitted to USEPA by American Hoescht Corporation, and associated with Docket No. OPTS-66008, EPA File No. ME-5 and PDE-70.5.

I am also requesting copies of any documentation submitted by American Hoescht Corporation to USEPA's Office of Toxic Substances associated with the September 20, 1984, request to renew the original petition.

If fulfilling this request is not possible, we request information as to why, as we understand that these records are publically accessible under statutory regulations. History Associates agrees to pay all reasonable and standard processing fees authorized by 5 U.S.C. 552(a)(4)(A) and the applicable regulations up to \$250. Should the fees exceed this amount, please call me with an estimate of the total costs in order that specific expenditures beyond \$250 can be authorized.

Should you have any questions or concerns regarding this request, please contact me at (301) 279-9697 or via email at ARebadow@historyassociates.com.

EPA-R8-2021-003241	Request	Dr. Christopher Sellers	Stony Brook University		3/19/2021	Closed	4/23/2021

This is a request under the Freedom of Information Act.

I request that a copy of the following publicly available documents be provided to me: the Class VI Underground Injection Well (UIC) permit application that was submitted by Gulf Coast Sequestration (GCS) to EPA Region 6, as well as any attachments to or technical documents in support of the application. This includes but is not limited to the Area of Review (AoR) materials. I understand that Gulf Coast Sequestration submitted its permit application to EPA in October 2020 for the long-term storage of carbon dioxide captured from a project located in Louisiana.

It also is my understanding that the requested Class VI permit application and accompanying supporting materials are public record once submitted. Importantly, I am not requesting any documents or other information that may have been identified as confidential business information (CBI), or confidential information more generally. I would only like to obtain for review the non-confidential portions of the application and supporting documentation.

It is my understanding that the other eight exemptions do not apply in this matter, nor do the three exclusions.

I hope that the application and supporting documentation can be submitted to me electronically, thereby eliminating the need for fees related to a paper production. However, if fees are required, I am willing to pay fees for this request up to a maximum of \$100. If you estimate that the fees will exceed this limit, please let me know and we can discuss.

Dear Environmental Protection Agency

We are supporting a UST project in Forsyth County at the XPO Logistic facility located at 438 W Bodenhamer Street, Kernersville, North Carolina. The North Carolina Department of Environmental Quality (DEQ) Assessment Receptor Survey Section 3.2 requires the owner/operator to show all public and private water supply wells, and public water supply lines within a 1,500-foot radius of the source area.

The UST site is located at 438 W Bodenhamer Street, Kernersville, North Carolina, and all surrounding property within 1,500 ft is audited as property of Forsyth County. Would the EPA be able to provide information regarding private and public water supply wells within 1,500 ft radius of the 438 W Bodenhamer Street, Kernersville, North Carolina property?

Please let me know if you would like to discuss or have any questions/comments.

Thank you for your assistance.

Good morning Ms. Calderon,

I am reaching out in regard to the Agency's request for clarification of a recently submitted FOIA request (EPA R2 2021 006091).

NewFields is interested in any groundwater, soil, and/or sediments data, and available technical reports related to site remediation activities that have been conducted at the American Cyanamid Superfund site from January 1, 2019 to August 2021.

Thank you,
Zach Smith

Hello,

We are conducting a Phase I Environmental Site Assessment at a property in City of Cerritos.

We are interested in obtaining documents related to the following APNs and addresses:
Address: 17785 Center Court Dr N, Suite 100, Cerritos CA 90703
APN: 7030-011-919; 7030-011-007

For the purpose of this request, environmental records would include underground storage tanks, aboveground storage tanks, and/or other environmental permits, enforcement orders, and reports and correspondence related to previous site investigations/assessments, subsurface sampling, monitoring, cleanup/remediation, removal actions, closures, or any records related to conditions in air, soil, surface water, groundwater, or other environmental media.

Can you please notify us if you have any records?

1. Please provide ALL of the air emission complaints EPA has received as detailed below regarding unconventional oil and gas infrastructure, including
 a) unconventional oil and gas well sites -and this includes complaints made during the drilling and fracking process itself-
 b) pipeline compressor stations
 c) natural gas processing plants d) any other natural gas & Natural Gas Liquids pipeline infrastructure that generated air emission complaints to EPA that EPA has on file.

- For EPA Region 6, Air emission complaints to EPA regarding unconventional oil & gas development and associated infrastructure from 2005 to 2010.
- For EPA Region 8, Air emission complaints to EPA regarding unconventional oil & gas development and associated infrastructure from 2010 to 2020.
- For EPA Regions 3 and 5, Air emission complaints to EPA regarding unconventional oil & gas development and associated infrastructure from 2005 to the present.

The reason both EPA Regions 3 and 5 are necessary is because the large Marcellus and Utica shale booms cover Ohio, Pennsylvania and West Virginia, which spans both EPA regions. Because the sections of these states with heavy infrastructure are in Appalachia, with people living in steep valleys and oil and gas infrastructure often perched on the hills and ridges above, and there is a known history of toxic industrial emissions settling in valleys, the air emission complaints from this region are of particular interest.

If the specific data cannot be extracted from a database collection, deleting non-responsive entries from the database extract is requested so that only responsive materials to the request are provided.

Pursuant to the Freedom of Information Act, I hereby request the following records:

I am requesting the 2020 transition paper or papers related to the EPA's Superfund program prepared between November 2020 and January 2021.

I request a waiver of all fees for this request. I am a member of the nonprofit media. Disclosure of the requested information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not being made for commercial purposes.

The requested documents will be made available to the general public, and this request is not being made for commercial purposes.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.

Sincerely,

David Hasemyer

EPA-2021-004781	Request	Kevin Bogardus	E&E News	<p>OCFO-21-000-2598 Rep. Chellie Pingree</p> <p>I request the EPA Office of Inspector General's closing reports of investigation and/or closing memorandums regarding the investigation described in the following excerpt from the EPA OIG's Oct. 1, 2020 - March 31, 2021 semiannual report, Report No. EPA-350-R-21-001, released on June 1, 2021:</p> <p>"The EPA OIG received an allegation that the Agency continued paying a former EPA employee after that individual's employment was terminated by the EPA. During the investigation, we identified a second former EPA employee who also received pay after that individual's employment was terminated by the EPA. We substantiated the allegation, finding that two senior officials in the Office of the Administrator, one serving as a noncareer member of the Senior Executive Service and one serving as a GS-15 of the General Schedule, made material misrepresentations so that the EPA would continue paying the former employees after their employment was terminated."</p> <p>I also request the EPA OIG's closing reports of investigation and/or closing memorandums regarding the investigation described in following excerpt from the same report:</p> <p>"Based on additional information obtained during the investigation, we initiated a subsequent investigation involving the senior GS-15 official. Specifically, we found that, after being assigned to a new position and duty station, the senior GS-15 official engaged in time-and-attendance misconduct. In addition, we found that, at the direction of the senior SES official, the senior GS-15 official improperly received a four-step pay increase, allowing the individual to keep the same salary despite being at a duty station with a lower locality pay. Dear Sir/Mam:

☐

Under the provision of the Freedom of Information Act, 5 U. S. 552, I am requesting access to certain information available from your agency.

Please provide us with any information you may have available with regard to the above referenced property address, particularly information at the site EPA Registry Id: 110060250062, any environmental releases (spill and or air emissions) as well as any enforcement issues (violations or citations) that may have been issued to the property or that may still be open.

If a fee less than \$25.00 will be imposed for searching or copying the information that I have requested, please provide me with the information I have requested and bill me for the amount due. If more than \$25.00 will be charged, please inform me of that fact before responding to this request.

I would appreciate it if you would process this request as quickly as possible. If, however, you do not grant it within 10 working days, as the law stipulates, I will deem it denied. Thank you for your attention. I await your timely reply.

Sincerely,

In May EPA Region 2 issued a 60-day shutdown order to Limetree Bay refinery on St. Croix. The order included a requirement for an independent audit of the refinery to determine what is needed for operations to resume safely. The result according to one of our sources is two audits that were reportedly submitted to EPA Region 2 on Friday. I am a reporter for Virgin Islands Source and am requesting the audits in order to report to Virgin Islanders what it will take for the refinery to re-open. This is especially important because this transparency was lacking when the plant started up last February after almost 10 years in mothballs. Under the Trump EPA, the exceptions granted the refinery allowed a hasty restart without appropriate modernization. The resulting toxic flares and oil sprays affecting dozens of downwind neighborhoods caused an EPA-ordered shutdown after less than four months of operation. Our story based on the audit, which is on deadline today, will help Virgin Islanders hold the refinery and government accountable for a safer restart. Langan Engineering is conducting a Phase I Environmental Site Assessment (ESA) of the property located at 197 Timberlane Road, Clarksboro, Gloucester County, New Jersey. The property is also identified as Gloucester County Block 204 Lots 33, 32, and the western portion of 31.01. In support of our Phase I ESA, Langan is requesting any information or copies of files regarding environmental conditions at the site, such as environmental reports, environmental permits, building permits, notices of violations, spill/discharge incidents, storage or disposal of hazardous substances, Underground Storage Tanks (USTs) or Aboveground Storage Tanks (ASTs), Leaking Underground Storage Tanks (LTANKs), asbestos abatement, and any other environmental reports that your department may have. 				I request a list of individuals who were employed at the Environmental Protection Agency (EPA) in any of the years 2002, 2003, 2004, 2005, and/or 2006. It is my understanding that during 2004 the EPA converted Senior Executive Service (SES) employees into a new pay system. The old SES system had six levels (ES-1 through ES-6), whereas the new system has a single pay band (ES-0). In the old system, SES employees received locality pay on top of their base pay, whereas in the new system locality pay is no longer applied. To convert employees from the old SES system to the new one, the employee's "old" base pay plus locality pay became the new base pay. I believe the transition took place around January 2004. I would like to receive information on the conversion from the old SES system to the new one. In particular, I would like to see each employee's base pay, locality pay, total pay, level and step (if applicable) before and after the conversion took place. The following hypothetical example illustrates the type of data I request. Suppose Mr. John Doe worked at the Philadelphia office. In the old SES system, Mr. Doe was an ES-3 with \$127,500 base pay and \$142,500 total pay (locality pay included). In the new SES system, Mr. Doe is ES-0 level with \$145,076 base pay and the same total pay (since there is no locality pay post-transition). Thus, in addition to the "standard" conversion formula (which raised his base pay from \$127,500 to \$142,500), Mr. Doe received a \$2,576 pay raise, bringing his new base pay to \$145,076. Please also include the employee's full name, occupation (e.g., general attorney); position title (e.g., attorney-adviser); office/division (e.g., Enforcement Division); duty location; and accession date.

SEMS/CERCLA: MAD051787323

TRC would like to request any updated information on the property at 67 High St. Billerica MA regarding the B&M locomotive shop disposal area remediation, specifically for information updated after 2019.

Information regarding the current status of the construction of The B&M Locomotive shop disposal area is referenced in the paragraph below:

“The B&M Locomotive Shop Disposal Area (AOC 3) is an approximately 4-acre disposal area that is part of Operable Unit 3 (OU3) at Iron Horse Park. As a part of the remedy, the waste at AOC 3 will be capped and area wetlands restored. This cleanup effort for AOC 3 started in September 2018. It is anticipated that construction will be completed during the winter (late December), and vegetation established in the spring of 2019.”

It is past the spring of 2019 so that is why we are emailing in regards to if the project was completed on schedule or not.

EPA-2022-000158	Request	Dr. Rodney C Akers	Rodney Akers, Regulatory Services LLC	<p>Center (EPA Registry ID 110070389203) is obsolete by SIX YEARS since long before these flagrant felons took possession of the site in January 2018. Despite being heavily subsidized by federal taxpayers' dollars to remediate the site's pre-existing contaminants, which include massive quantities of airborne and waterborne PCBs PLUS record hexavalent Chromium levels (as reported by 2009, per the 2011 Sierra Club report titled "The EPA's Blind Spot" which entry for Brayton Point had required an entire FOIA-request-and-complaint campaign), both of the last two sets of owners AND their respective sets of hired goons have been allowed to flout state and federal environmental laws nonstop and with utter impunity. In each case, the parties had immediately proceeded to trespass at will on the Commonwealth of Massachusetts' taxpayer-built, taxpayer-owned and taxpayer-funded RIVERSIDE Quay and Bulkhead, which deeded, registered Commonwealth capital asset Governor Baker's egregiously-corrupt Secretary of the Executive Office of Energy and Environmental Affairs has finally admitted (via official letter) still belongs to our state. The Region 1 EPA has not even bothered to relabel the property's name. To elude sanction, the Region 1 EPA has also listed the waterway as "Narragansett Bay," despite knowing full well that NOAA's Office of the Coast Survey, the US Geological Survey's Office of Coastal Zone Management, and the Geographical Information System all list Narragansett Bay not to mention this site's more proximal waterway, which is Rhode Island's Mount Hope Bay, which, again, doesn't even begin until over a mile south of the mouth of OUR waterway, which happens to be the federally-registered "Wild and Scenic Taunton River." While the crooks may have tampered at the eleventh hour with Congress's geographical designation for the Wild and Scenic Rivers Registry at the Department of the Interior, they weren't able to make the bona-fide authorities on this river's navigational coordinates revise their records. Is it really any surprise that with the Region 1 EPA protecting our citizens' health and safety, there has been NO NPDES, CERCLA or other activity on record since prior to our last two Governors' consecutive sales of this facility to out-of-state corporations? Nor has any attention whatsoever been paid to any Records regarding the Camp Shanks Landfill</p> <p>We are conducting an environmental investigation of the following property located at 1501 Admiral Wilson Boulevard, City of Camden, Camden County, New Jersey, identified on the tax map as Block 1193, Lot 13. EPA-R5-2021-005386 EPA-R5-2021-003330	Request Request	Mr. Kristopher Orton Mr. Paul Manion	Wood	I am on a contract for the Illinois EPA and I am inquiring to determine what potential USEPA files may exist for the Jennison Wright facility ILD006282479 located in Granite City, IL. I performed a query for "Jennison" using the foiaonline website and identified that previous queries that had been executed which included several files existed. Two of the queries included files (Jennison-Wright Index (1) and 05-150249) are index files for the property in question. Documents are presented on the indexes (Doc ID 150249, 141081, etc.) and I have downloaded the files but the index lists don't look comprehensive. I am requesting a comprehensive list showing all USEPA RCRA, SUPERFUND, CERCLA, Hazardous Waste Manifests, RCRA logs, etc. that may exist so I may determine if any additional files are required for my records review. I am looking for records related to a RCRA CORRACTS facility ID #110032749275 The EPA inspected the referenced Site in the early 1990s. I would like to request documentation relating to this inspection. United States Environmental Protection Agency,

This request is made on behalf of myself under the Freedom of Information Act (5 U.S.C. § 552).

I am currently a developmental neurotoxicologist and private citizen working on a project that aims to support the transition from animal-based testing to the use of alternative non-animal testing methods for assessing the potential developmental neurotoxicity hazards of chemicals. I have conducted research developmental neurotoxicity research for more than 40 years. My publication record includes more than 150 peer-reviewed journal articles, book chapters, and government reports (e.g., ORCID ID: 0000-0003-1749-9971). The overall goals of this project are to: 1) facilitate the development of non-animal alternative models for development neurotoxicity by informing the comparison to in vivo results from regulatory driven testing; and 2) make the data and findings publicly available by publication in a peer reviewed journal or other publicly accessible format. I note that this goal is in line with the previous Administrator Andrew Wheeler's statement on 09/10/2019 to reduce animal testing by 30% in 2025.

Subsequent to my previous request (FOIA request EPA-2020-003946) for a list of all Developmental Neurotoxicity Studies that have been submitted to the Office of Pesticide Products, I am now requesting copies of the Data Evaluation Records/Reviews (DERs) for the specific studies in the attached. I have provided both an MRID number as well as a Citation Reference.

Any and all floodplain/flooding/base flood elevation/ or other related documents related to the permit and permit application for RCRA Treatment, Storage, and Disposal facility: EPA ID: TXD043750512. Including but not limited to: whether the facility was in a 100 year floodplain, the source of the data for the determination, the 100 year flood level, and any other special flooding factors.

Also, please provide a copy of the entire permit application and any included exhibits, documents, or other referenced material for RCRA Treatment, Storage, and Disposal facility: EPA ID: TXD043750512.

I would like to request any and all regulatory and inspection data relating to any USTs (underground storage tanks) or ASTs (above ground storage tanks) located on the site. As well as any other environmental issues or reports on the subject property located at: 3433 N. Colfax St., Gary, IN, 46406.

I recently did a search on google for "Toll and Chemical Blenders" and noticed that several of the companies noted themselves as "EPA Registered" for instance "the American Blending Company. I am trying to identify any and all reports/databases that have a listing of registered toll blenders along with details of their registration "i.e. are they a third-party blender (do they only blend chemicals provided to them by a supplier), what make up those chemicals are (liquids, gels, foams) and what industries they do it for (agriculture, pharmaceuticals, etc.) as well as if these chemicals are toxic, flammable, edible, etc. if you can help me, I would really appreciate it.	10/21/2020	Closed	12/8/2020

Good day,

I am looking to receive a national list of Obligated Parties who participate in the Renewable Fuel Standard Program. In particular, I am looking for all entities that are obligated by the EPA to submit Renewable Identification Numbers to the EPA for compliance.

The parties would be submitting their data to the EPA Moderated Transaction System (EMTS). The website to information on this program is here (<https://www.epa.gov/renewable-fuel-standard-program/overview-renewable-fuel-standard>)

Thank you very much and please feel free to reach out with any comments or questions.

Best regards,

Michael

We are conducting an investigation of site operations and site history of the former Richmond Naval Air Station, located in Richmond (Perinne), Florida. We are conducting our research on behalf of the Corps of Engineers, Savannah District and our contractor, SERES LLC. In particular, we are focusing on the 49-acre site currently owned by Miami-Dade County and operated by the Gold Coast Railroad Museum.

The Corps of Engineers, working through our contractor team, is compiling an overall history of the site from its development as a Navy blimp base in WWII, until the present, including record collection, title search, interviews, and other research tasks. Preliminary sampling by the State of Florida has shown some contamination in the area of Former Blimp Hangars # 1 and #2 and associated maintenance buildings. We are interested in this area, but also the site in its entirety in order to illuminate any site areas that may need additional physical investigation.

We have already located and have in our possession a PA/SI conducted by FDEP in 2010/2011 (EPA ID No. FL6470032446). We have located a reference to a Naval Energy and Environmental Support Activity (NEESA) draft PA report which was said to focus on the nature of hazardous waste at NAS Richmond. It was noted that the finalized report was to be submitted to EPA by 21 March 1988. We have not been able to locate this PA and are hoping it may be in EPA archives. I did see that this site was listed on the Federal Register for 1988, but was no longer listed in 1989.

We are interested in all records the EPA may have regarding this site, including but not limited to trip reports, walk-over notes, remedial or removal actions, and sampling events.

EPA-R4-2021-002499	Request	Ms. Pamela Sass Cahaly	James Kerr and Associates LLC	We are interested in obtaining documents, specifically RCRA and CERCLA documents, related to the following APNs: 0229-121-34, 0229-121-35, 0229-131-19. These APNs are associated with the address 12549-B Arrow Route, Rancho Cucamonga, CA. For the purpose of this request, applicable environmental records would include underground storage tank, aboveground storage tank, and/or other environmental permits; enforcement orders; and reports and correspondence related to previous site investigations/assessments, subsurface sampling, monitoring, cleanup/remediation, removal actions, closures, or any records related to conditions in air, soil, surface water, groundwater, or other environmental media.	2/8/2021	Closed	2/18/2021

I am writing this request in relation to developing a GIS tool to analyze dams for potential candidacy in removal as a capstone project for my masters degree. The goal of this project is to clearly identify indications and contraindications that would allow the public to form an opinion on the long-term health of preserving a specific dam, utilizing risk factors such as proximity to sites that may further harm the greater ecosystem. Presently this tool has no intent to be formally published but, should it prove useful, I would hope to use this information to create a professional business portfolio grounded in academic research and design.</p> <p>Information that would be of most use to this project would be:</p> <ol style="list-style-type: none"> 1.) Location of the site, and its proximity to the tributary it is situated along. 2.) Severity of the site, and reasons for its creation 3.) EPA-2021-002577	Request	Mr. Thomas A Heenan		<p>Hello I am a college student working on a research project and wanted to request the latest version of the Risk Management Plans. This database would help to provide me with the information needed to complete my research. This database contains facilities that have developed risk management plans as reported by the Environmental Protection Agency. The System for Risk Management Plans (SRMP) is a suite of electronic systems containing information relating to risk management plans submitted by facilities in accordance with the Clean Air Act, Section 112(r). Affected facilities are to develop risk management programs which will prevent and minimize consequences of accidental releases of certain hazardous chemicals that could harm public health and the environment. An up to date database with chemicals, locations, and risk management plans would provide me with the information needed to complete my research and project. My preferred format would allow me to search the database myself, but I am open to discuss other options if need be. Thank you for your assistance. Hello,

Through this request, I would like to obtain polygon boundary coverages of all National Priority List (final, deleted and proposed) sites in Region 9. ArcInfo Export or Shapefile format or geodatabase format.

I would like:

Operable Unit Polygons: The OU polygons represent an individual OU's perimeters, which are used to identify a portion of a Superfund site with which assessment and response actions are associated

Total Site Polygon: The total site polygon represents the footprint of a whole site, defined as the sum of all of the OUs and the current understanding of the full extent of contamination

Please let me know

Thank you,

				I need to get a document associated with the Kennecott Eagle Mine Project in Region 5. The region 5 website had an email address to request the document, but my email was rejected.			
				The particular document was attached to a letter from V. Peacey at Kennecott to R. Harvey at EPA dated 12/18/2009 labeled as "Response to Memorandum Dated 09/04/2009 from Ann Maest (Stratus Consulting, Inc.) and Robert Prucha (Integrated Hydro Systems) (PDF)" on the website. The letter included a CD containing the attachments referenced in the letter. I would like to get those attachments, in particular the "State Office of Administrative Hearings and Rules Proposal for Decision."			
				I have attached the letter for which I need the attachments.

Dear EPA Officials,

This is Morteza S. Majd, I am currently working with DoD Climate Action Team to address EO 14008 and climate related concerns. Our team needs to have access to HTRW data base. These type of data are needed in DoD climate data analysis toolkit in order to assess vulnerabilities of our structures/infrastructures to climate change under different climate modeling scenarios. Your support on this really appreciated, and please let me know if more information needed.

Thank you,

Sincerely,
Morteza Shakeri Majd, Ph.D.

My supervisor, and the president of my company, formerly worked on a contract between EPA Cincinnati and ERCO (Energy Resources Company, Inc., 185 Alewife Brook Parkway, Cambridge, MA), the latter for which he used to work. This contract was regarding the development of fluidized bed pyrolysis, and he recalls that the work was performed from 1974 to 1978. We would like to obtain all documentation available in relation to this contract (for which we do not have a contract number available), including any reports provided to the EPA. We would also like to obtain any photographs or drawings that were submitted in conjunction with those reports.

(It should be noted that ERCO worked on several contracts with the EPA, but we specifically want documentation related to contracts regarding fluidized bed pyrolysis or pyrolysis.)

[New materials submitted by requester on 10/21/2021 with the following statement: I believe I may have identified a potential contract number 68-03-0240 and wish to find all documents, reports, photos, and drawings associated with the contract, as well as any other documentation related to contracts between ERCO (Energy Resources Company, Inc., 185 Alewife Brook Parkway, Cambridge, MA) and EPA Cincinnati for pyrolysis and fluidized bed pyrolysis between 1974 and 1978. Attached is a conference proceeding with the contract number mentioned for reference.]

				I have reviewed and collected the available information at Envirofacts and MyProperty Portal and am requesting additional information on the Verizon site (fka New York Telephone Company) at 297 Norman Ave, Brooklyn, NY. I am seeking documents for the period of January 1, 1973 to the present. The USEPA Registry ID associated with the site has not been located. I am seeking: 1) RCRA files (permits, inspections, violations) for RCRA No. NYD987028024; 2) Environmental reports and investigations (including investigation reports, remediation reports, and sampling data for water, soil and groundwater media); 3) wastewater discharge files (expired/historical SPDES/NPDES permits, discharge monitoring reports and data, spill reports, records of violations and administrative actions) (No SPDES nor NPDES permit numbers have been located). If the agency has responsive documents, I ask that I be provided these in electronic format. Note that the site was likely in operation between 1973-2010. I am seeking documents related to both the period of operations, site closure, and site investigation and/or cleanup.

Pursuant to the Freedom of Information Act, 5 U.S.C. Â§ 552, et seq., I am requesting copies of specific public records relating to the West Chicago Environmental Response Trust Agreement (attached) to which the U.S. Environmental Protection Agency (USEPA) is a Beneficiary. Pursuant to Section 6.1 (Reports) of the Agreement, the West Chicago Trust is required to submit quarterly reports to Trust beneficiaries (including the Office of the Attorney General). These reports include (a) financial statements of the West Chicago Trust at the end of such calendar quarter or period and the receipts and disbursements of the West Chicago Trust for such period; and (b) a description of any action taken by the West Chicago Trust in the performance of its duties which, as determined by outside counsel, accountants or other professional advisors, materially and adversely affects the West Chicago Trust and of which notice has not previously been given to the Beneficiaries. I request copies of all financial statements and quarterly/annual reports provided by the Trust to the USEPA from the Trust's inception in February 2011 to the present. If there are any fees for searching or copying these records, please inform me if the cost will exceed \$100. I would request a prompt response to this request. If you expect a significant delay in responding to or in fulfilling this request, please contact me with information about when I might expect copies or the ability to inspect the requested records. If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law. Thank you very much for your help in this matter.

This request was previously made under EPA-R5-2021-003383. After discussions with representatives in Region 5, it was determined these records are not at Region 5 but may be at Headquarters.

All records within the EPA file pertaining to joint public notice SAC 2015-00012 for the proposed Long Savannah, Village Green, and Bulow County Park development. Any documents, files, reports related to Superfund Site Information, EPA ID No. WVD980537401 for EPA Region 3; site name is Kerr Glass Mfg Corp, Terrace Avenue, Huntington, WV 27505. EBI is currently completing a Phase I ESA of a small part of the Lockheed Martin property (NYD986874501), 1801 State Route 17C, Owego, NY (former IBM Corporation). Per the EPA website, the contamination is under control and the groundwater plume is being monitored to confirm that it is not migrating or spreading.

Our client will be excavating in preparation of installing a telecommunications tower/compound and our concern is whether the current groundwater contamination plume extends to the area of proposed excavation. Could you please provide a map indicating the boundaries of the plume and concentrations? If you aren't able to provide, who should I contact for that information?

Any information you can provide would be greatly appreciated.

Dear Sir or Madam,

I am trying to locate the following documents relative to the 2013 Mercedes-Benz GLK250 Bluetec 4Matic (Test Group DMBXT02.2U2A):

- Advisory Circulars
- Applications
- Certificate of Summary Information
- Certificates of Conformity
- Guidance Letters
- Verify System Documents

My searches using the EPA's Transportation and Air Quality DIS has turned up no results for this vehicle (but plenty of results for surrounding model years). Can you help me to locate these documents?

A corresponding CARB document is submitted for reference.

Thanks very much in advance for any assistance you can provide.

Best Regards,

Daniel Inscore

Pursuant to the Freedom of Information Act, 5 U.S.C. Â§ 552, et seq., I am requesting copies of specific public records relating to the West Chicago Environmental Response Trust Agreement (attached) to which the U.S. Environmental Protection Agency (USEPA) is a Beneficiary.

Pursuant to Section 6.1 (Reports) of the Agreement, the West Chicago Trust is required to submit quarterly reports to Trust beneficiaries (including the Office of the Attorney General). These reports include â€œ(a) financial statements of the West Chicago Trust at the end of such calendar quarter or period and the receipts and disbursements of the West Chicago Trust for such period; and (b) a description of any action taken by the West Chicago Trust in the performance of its duties which, as determined by outside counsel, accountants or other professional advisors, materially and adversely affects the West Chicago Trust and of which notice has not previously been given to the Beneficiaries.â€ I request copies of all financial statements and quarterly/annual reports provided by the Trust to the USEPA from the Trustâ€™s inception in February 2011 to the present. I believe these records are held by the USEPA Region 5 Waste Management Division.

If there are any fees for searching or copying these records, please inform me if the cost will exceed \$100. I would request a prompt response to this request. If you expect a significant delay in responding to or in fulfilling this request, please contact me with information about when I might expect copies or the ability to inspect the requested records.

If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law.

Thank you very much for your help in this matter.

EPA-R10-2021-000430	Request	Ashley Bennett	Earthjustice	There was a label for a pesticide presented in a negligence trial that was not under the PPLS page, subsection detailed history. The registration number is 84526-1. The label presented was for October 24th 2012; however, the only labels within the detail history that were observable for 2012 were in the months of September(18th) and December(6th). My question pertains to if there were any labels submitted between those dates that are not listed in the detail history. Moreover, I would kindly ask if the label that was submitted in December would supersede the one that was submitted for October 24th. The one submitted for the trial, under changes, it lists a brand name change to "HaloSpray" from the previous name "Sanosil S010", yet for the December label, the subject name was still "Sanosil S010". There is no change until or mention of "HaloSpray" until May 15th 2018. My question then becomes, would that mean that the label presented in court is legitimate? Thank you for your time.	10/21/2020	Closed	12/19/2020

				<p>RCRA Info: CAL000451507</p> <p>This is a formal FOIA request for surface water quality data collected in Lake Creek, Northwest Montana for the ASARCO/Troy mine project; I'm looking for data collected by the USGS from 1976-1978. This information is referenced in the Mine Site Visit, ASARCO/Troy Mine 1992 conducted by the USEPA on page 31.</p> <p>The earliest surface-water-quality monitoring results discussed in MDSL documents provided to EPA are from Lake Creek in 1974. This early baseline surface-water monitoring conducted by ASARCO was complemented with monitoring in the Stanley Creek drainage in 1977, both above and below the mill site. The United States Geological Survey (USGS) and the Montana Bureau of Mines and Geology (MBMG) have both sampled Lake Creek below the tailings dam; the USGS monitored from 1976 to 1978 and the MBMG monitored from 1979 to 1982. EPA did not have access to the raw data collected by ASARCO (prior to 1985), MBMG or the USGS.</p>

This is to request any records in the Agency's possession regarding the following property:

The former Price-Pfister manufacturing site, also known as the Polgrean Property, on Humboldt Street in Los Angeles. This property is listed by the LA County Assessor's Office with an address of 3011 Humboldt Street, Los Angeles, CA 90031. Historic addresses for this property include odd numbers ranging from 2903-3013 Humboldt Street.

Documents requested include, but are not limited to, assessments of environmental conditions on this property. This includes data and/or reporting on the extent of soil, soil vapor, air, and groundwater contamination. It also includes any reporting on activities, such as storage/use of toxic or hazardous substances or waste, wastewater discharges, or air emissions on this property that could potentially have impacted, or is impacting, the environment. Based on documents describing investigations of a neighboring property, an investigation by or for USEPA of soil and groundwater at this property was performed in or around October 2002. Any documents related to this USEPA investigation are requested.

It's my understanding that any responsive documents will be emailed to me, which is my preference. Given that I'm currently telecommuting from home, please notify me if this is not the case, as I would have to make arrangements to pick up any documents mailed to my office.

Thank you for your assistance!

Hello,
I would like to request two Environmental Education proposals.

Colorado Mountain College, \$97,217, 2019.
Joseph Chusid, 802 Grand Street, Glenwood Springs, Colorado 81601
Abstract: Field-based science: Colorado students investigating water quality in their community Given Lake County, Colorado's long history of mining and increasing usage of public lands by recreationalists, there is a unique opportunity to increase environmental literacy surrounding water quality and aquatic health for county residents.

Troy University, \$100,000, 2019.
Brian Helms, 210K MSCX, Troy, Alabama 36082
Abstract: Deep South Student Leadership and Environmental Action Program (LEAP) This project will take place in Alabama's Black Belt region, which comprises roughly 17 underserved counties with high poverty, little economic opportunities, and high unemployment. Thus, there is a critical need for advances in education, awareness of local environmental issues, and much needed job skills among the youth in this area. Troy University's Deep South Student Leadership and Environmental Action Program (LEAP) will allow students to exercise their creativity by guiding place-based environmental problem-solving design, solution implementation, and interpretation through an informal environmental mentoring initiative. During this mentorship initiative, mentors, liaisons, and 18 11th-12th grade Fellows will identify local, manageable environmental issues and associated means to address them (i.e., a "solution"). The project Fellows will in turn lead and inspire other students and community members at their respective schools by implementing their own environmental projects. The projects implemented by the Fellows will directly reach an additional of 3,000 high school students and community members.

PLEASE SEE THE ATTACHED LETTER FOR FORMAL REQUEST.

Pursuant to the Freedom of Information Act (5 U.S.C. § 552, and the implementing regulations of the United States Environmental Protection Agency (EPA)), I request a copy of the score assigned by the United States Department of Energy to the following petitions for an extension of the Small Refinery Exemption:

HollyFrontier Cheyenne Refining LLC (EPA Facility ID 02900) petition for an exemption for compliance years 2013 and 2014, submitted on June 12, 2020;
HollyFrontier Woods Cross Refining LLC (EPA Facility ID 04739) petition for an exemption for compliance years 2011-2015, submitted on June 19, 2020.

We understand that the requested records may contain Confidential Business Information (CBI) information. However, since we own and operate HollyFrontier Cheyenne Refining LLC and HollyFrontier Woods Cross Refining LLC, an exemption from disclosure based on CBI is inapplicable to our request. If you determine that you are unable to disclose the requested records based upon a claim of privilege or other exemption, please provide the basis for such a claim, as soon as possible.

Please note that this request is time critical, and therefore I request that EPA respond as promptly as possible within the time limits set out in the FOIA. I confirm in advance my willingness to pay for all reasonable costs associated with this request. However, should these costs exceed \$500, I ask that you contact me prior to proceeding.

We would prefer an electronic copy of the requested records, if possible. Alternatively, we would be happy to arrange to have the requested records picked up from your office, if that is convenient for you.

completed its Report on Inspection to Determine Compliance with PCB Regulations (the "PCB Compliance Inspection Report") at the Sky Valley Education Center ("Sky Valley") located at 351 Short Columbia Street, Monroe, Washington 98272. This inspection was performed by the EPA's Pesticides and Toxic Substances Branch, 77 West Jackson Boulevard, Chicago, Illinois 60604. The EPA officials who authored the report are Kendall Moore, Environmental Scientist, and Kenneth Zolnierczyk, Environmental Engineer.

The PCB Compliance Inspection Report includes a "SAMPLE LOG" of samples taken during the inspection. The Sample Log is a chart that identifies each sample by sample number and provides the following information: the location the sample was taken, the type of sample taken, the date the sample was taken, and the result from what appears to have been a laboratory analysis of the sample for PCBs ("polychlorinated biphenyls").

We are submitting a Freedom of Information Act request for the following information:

1. Any documents generated in the course of laboratory testing of the samples taken at Sky Valley that led to the results reported on the Sample Log of the PCB Compliance Inspection Report.

To assist you in complying with our request, we have attached a copy of the PCB Compliance Inspection Report. The Sample Log can be found at MSD_050739"40 or the last two pages of the report.

If access to the records requested will take longer than the twenty (20) days prescribed at 5 U.S.C. Â§ 552(a)(6)(A), please contact us with information about when we might expect copies or the ability to inspect the requested records.

Dear FOIA Officer,
 The Bureau of Investigative Journalism would like to obtain under FOIA the below information relating to lobbying of officials on behalf of Cargill Inc, as outlined in the Senate's lobbying disclosure reports.
 I would please like to see copies of all records containing the following information: Communications with representatives of both Cargill Inc, between 1 Jan 2019 and the present day on the following subjects. The Senate lobbying disclosure reports list that Cargill itself (not a lobbying agency) lobbied your department on this issue in 2020 and/or 2019:
 1) Biofuels,
 2) Biogenics CO2.
 Cargill Inc representatives who lobbied EPA on this include:
 Zachary Kinne,
 Ashley McKeon,
 Kelsey Freeman,
 Lewis Broderick,
 Jonathan Scharfen,
 Jacob Kuhns.
 I attach the relevant Senate lobbying records.
 "Communications" should be taken to include emails and letters; notes from phone calls; invitations, minutes and agendas from meetings as well as the slides from any presentations; calendar appointments; briefings; memos; and any other communications; text messages or WhatsApp messages; and any other communications.

Please email or phone me if you require clarification of my request. If you deny all or any part of this request, please cite each specific exemption that you believe justifies your withholding of information. Please be sure to notify me of appeal procedures available under the law in the event of any denial.

I herein request the publicly releasable Data Evaluation Records (DERs) for the following study, Master Record ID (MRID) 50688906, submitted to support EPA registration 524-661 on 03/28/2019.

financial statements and other documents in the possession of USEPA concerning how USEPA has used/dispersed funds from the 2010 Tronox Environmental Settlement Agreement and the 2014 Tronox Bankruptcy Settlement (collectively, the "Settlements") at the following sites:

Navajo Area Uranium Mines

Documents of interest include, but are not limited to, financial statements and quarterly/annual reports discussing the receipt and disbursement of funds from the Settlements; e-mail, correspondence, and reports concerning the use of Settlement funds at the sites; and, descriptions of remediation activities taken at each site with funds dispersed from the Settlements. Where possible I have provided site id numbers. For additional information on the sites please see the 2010 Notice of Lodging of Proposed Consent Decree and Environmental Settlement Agreement from the U.S. Bankruptcy Court, Southern District of New York.

Per my investigation of the settlement documents, funds were distributed to USEPA Headquarters Division.

If there are any fees for searching or copying these records, please inform me if the cost will exceed \$100. I would request a prompt response to this request. If you expect a significant delay in responding to or in fulfilling this request, please contact me with information about when I might expect copies or the ability to inspect the requested records.

If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law.

copies of specific public records relating to the Cimarron Environmental Response Trust Agreement (attached) to which the U.S. Environmental Protection Agency (USEPA) is a Beneficiary.

Pursuant to Section 6.1 (Reports) of the Agreement, the Cimarron Trust is required to submit quarterly reports to Trust beneficiaries (including the USEPA). These reports include (a) financial statements of the Cimarron Trust at the end of such calendar quarter or period and the receipts and disbursements of the Cimarron Trust for such period; and (b) a description of any action to be taken by the Cimarron Trust, and prior to such action being taken, in the performance of its duties which, as determined by outside counsel, accountants or other professional advisors, materially and adversely affects the Cimarron Trust and of which notice has not previously been given to the Beneficiaries. I request copies of all financial statements and quarterly/annual reports provided by the Trust to the USEPA from the Trust's inception in February 2011 to the present. I believe these records are held by the Office of Site Remediation Enforcement, Regional Support Division.

If there are any fees for searching or copying these records, please inform me if the cost will exceed \$100. I would request a prompt response to this request. If you expect a significant delay in responding to or in fulfilling this request, please contact me with information about when I might expect copies or the ability to inspect the requested records.

If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law.

Please contact me by email at lwp1018@gmail.com if you have any questions or need more information in order to process this request.

EPA-R4-2021-003682	Request	Rodney Huerter	Veolia North America	<p>On March 9, 2021, in response to FOIA Online Request No. EPA-R4-2021-002832 (Request), the EPA provided the attached "RCRA Site Detail" report for the facility registered with EPA ID No. NCD070619663 (Facility), along with related RCRAInfo "History of Handler Activity" and "General Handler" reports for the Facility. All of the produced reports are dated March 8. The current "owner" and "operator" of record information in the most recent source record "Receive Date" in the attached Site Detail Report is consistent with the information that is identified today in the following EPA web-based reports: 1) the Envirofacts Facility Detail Report for EPA Registry Id. No. 110000615264, and 2) the RCRAInfo Web Current Site Details for EPA ID No. NCD070619663 (I have attached copies of each of these referenced reports, which I printed today from the Agency's website). I request current copies of the RCRA Site Detail Report, History of Handler Activity Report and General Handler Report for the Facility, updated to include any and all new information from the March 8, 2021 run dates of the attached reports. Additionally, the "Released Records" page for the Request still shows a RCRA Site Detail that has accessibility / viewing-related errors (0.0 MB, as noted in my March 9 email). 				<p>Pursuant to the Freedom of Information Act, I hereby request the following records:</p> <p>Please provide all documents generated from the Uniontown Industrial Excess Landfill Superfund Site concerning test results (including sampling methodologies) that revealed any presence of the radioactive element known as Technetium 99 (aka Tc-99), conducted during the years 2000 & 2001 by the IEL PRPS , the US EPA, EPA Region 5, and Ohio EPA.</p> <p>The 2004 US EPA IG Report on the IEL indicated that data used to develop a chart within the IG Report had shown for Technetium 99 that there were "9 out of 9" samples.....ranging between ".....". This suggests that said supporting test results used by the EPA IG to draw this conclusion must exist on file, compiled in the IG Report.</p> <p>The requested documents will be made available to the general public, and this request is not being made for commercial purposes.</p> <p>In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.</p> <p>Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.</p> <p>Sincerely,</p> <p>Greg Schwartz</p>

				FOIA request to EPA regarding the Sprague Terminal located in Quincy, MA.			
				Modified on 2/24/21 following a conversation with CLF. CLF agreed to narrow the request to exclude records EPA would claim are subject to Exemption 5 (e.g., atty/client, atty work product, deliberative process) and/or Exemption 7 (e.g., enforcement sensitive). Reserving the right to re-open the FOIA (or resubmit it) to include such material. CLF does not exclude records claimed as CBI but they are excluding emails. CLF is looking for permits, inspection reports, findings, monitoring results, etc., but not all records relating to such documents. This narrowing applies to all elements of the request.

I seek a copy of a study in possession of EPA's Office of Pesticide Programs (likely in the Environmental Fate and Effects Division) with the MRID 41338902. This study was cited by EPA's Office of Pesticide Programs in its January 13, 2010 Registration Review Ecological Risk Assessment and Effects Determination for Propionic Acid and its Salts, EPA-HQ-OPP-2008-0024-0018, on page 32 of that document. Specifically, the Risk Assessment notes, "A limited study with calcium propionate in dogs for 90 days showed vomiting and diarrhea in animals fed 2523 mg/kg/day (43,500 ppm) (MRID 41338902)."

If a copy of the MRID 41338902 study is not available or subject to confidentiality limitations, I seek any additional information in EPA's possession, such as the study author, title and date of the study.

The following request is needed to complete a preliminary environmental site assessment for a proposed infrastructure redevelopment project for the Illinois Department of Transportation (IDOT).

I am only requesting releasable documents related to site investigations, site characterization, remediation activities, subsurface sampling, and maps of the site area. No legal documents are needed. I am only requesting releasable documents from your Superfund Enterprise Management System (SEMS). I DO NOT need files from the Federal Records Center or unreleasable documents. No RCRA information is needed. I only need records from the superfund division or from superfund records. I will accept any records with redacted information as non-responsive to my FOIA request.

				I also request the prepared remarks of former EPA Chief of Staff Mandy Gunasekara for the portrait unveiling ceremony of former EPA Administrator Scott Pruitt's official portrait, which was unveiled in the Green Room at the William Jefferson Clinton North Building in EPA headquarters on Jan. 15, 2021.			
EPA-2021-002232	Request	Kevin Bogardus	E&E News	I also request any audio and/or video recordings of the portrait unveiling ceremony of former EPA Administrator Scott Pruitt's official portrait, which was unveiled in the Green Room at the William Jefferson Clinton North Building in EPA headquarters on Jan. 15, 2021. Subject site is Carolina Pole (formerly named General Wood Preserving), EPA ID # NCD093137636 located in Leland, NC. I would like to please request documents on file from EPA and the subject site in response to the 1992 EPA RCRA Hazardous Waste Consent Agreement with General Wood Preserving (now named Carolina Pole). A copy of the EPA Consent Agreement is attached. The North Carolina Department of Environmental Quality, Hazardous Waste Section has the Consent Agreement on file, but does not have any of the documents in response to this Consent Agreement and needs these documents to ensure historic compliance with the 40 CFR 265 Subpart W requirements. Of specific interest are documents/correspondence about the adequacy (in inadequacy) of the upgrade to the site's drip pad system to comply with the 40 CFR 265 Subpart W requirements by May 6, 1995. Also any documents that show compliance (or non-compliance) with the 1992 Consent Agreement: In the 1992 Consent Agreement, the following were specifically required: Page 11, #7 notes that the escrow account would not be terminable until completion of all necessary work to have the drip pad system which puts the facility in compliance with Subpart W. Page 12, #9 states: "By no later than May 6, 1995, Respondent shall have at the facility a drip pad system, installed and operational, which meets or exceeds Subpart W standards, and from that date shall engage in no activity at the facility that is not in full compliance with Subpart W standards." Documents of interest are associated with RCRA hazardous waste and likely between the time frame of 1994-1997. Depending on the documents located, I may be willing to pay more than \$25 for the processing fees. Need all environmental records for toxic release or contaminants housed on property or issues related to contaminants being stored on property. To whom it concerns,

This is a request under the Freedom of Information Act. Per the statute, please provide records responsive to the following portions of this request within 20 business days.

For the time period of January 1, 2017 to January 1, 2021 to present, please provide all communications between Profile Strategy Group, which may be used as a keyword or searched for under the email suffix of "æ@profilestrategygroup.com," and the immediate Office of the Secretary. Where possible, please provide responsive documents on a rolling basis.

I preemptively agree to pay fees up to \$100 for the search and production of the above-described records and ask to be notified only if the estimated fees exceed that amount. Once records are compiled, please justify each deletion separately by reference to specific exemptions of the law and release all reasonably segregable portions of otherwise-exempt material. I look forward to your response within the act's statutory time limit. Thank you for your consideration of this request.

I am requesting all Certification with Respect to Citation of Data Forms (EPA Forms 8570-34) and Data Matrices (EPA Forms 8570-35) in the registration jacket for the Pesticide Product Tau-Fluvalinate Technical , EPA Reg. No. 2724-481.

I am requesting that the EPA Region 5, Air and Radiation Division, provide a list of hazardous waste incinerators that received PFAS from January 2019 to present (October 2021).

All communication between EPA Region V and John Gehrke and/or the Farm Services Agency of Illinois regarding the Mahomet Aquifer and impacts by Fanter Farms hog farm located in Mason County, Illinois. Mr. Gehrke purportedly requested a review by EPA Region V of the hog site as part of the FSA's environmental assessment prior to financing construction. Mahomet Aquifer is a sole source aquifer. There should be email/letter correspondence from the FSA to Region V asking for the review and a letter/email/report from Region V to FSA giving EPA's recommendations to protect the Mahomet. The FSA purportedly contacted EPA Region V at or around August 12, 2021 and the response from EPA would be between August and October 2021. We need this information in order the local community to provide public comment on the FSA EA/FONSI. Time is limited due to 30 day appeal deadline. We ask for expedited processing due to time constraints and a fee waiver due to this information is directly related to the public notice and comment period of proposed federal funding in an area with threatened species, sole source aquifer, and community of 50 people that were completely ignored in the EJ assessment.

To Whom It May Concern:

Pursuant to the Freedom of Information Act, I hereby request the following records:

Please provide all documents generated from the Uniontown Industrial Excess Landfill Superfund Site concerning test results (including sampling methodologies) that revealed any presence of the radioactive element known as Technetium 99 (aka Tc-99), conducted during the years 2000 & 2001 by the IEL PRPS, the US EPA, EPA Region 5, and Ohio EPA.

The 2004 US EPA IG Report on the IEL indicated that data used to develop a chart within the IG Report had shown for Technetium 99 that there were "9 out of 9" samples.....ranging between ".....". This suggests that said supporting test results used by the EPA IG to draw this conclusion must exist on file, compiled in the IG Report.

The requested documents will be made available to the general public, and this request is not being made for commercial purposes.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.

Hello,

Through this request, I would like to obtain polygon boundary coverages of all National Priority List (final, deleted and proposed) sites in Region 4. ArcInfo Export or Shapefile format or geodatabase format.

I would like:

Operable Unit Polygons: The OU polygons represent an individual OU's perimeters, which are used to identify a portion of a Superfund site with which assessment and response actions are associated

Total Site Polygon: The total site polygon represents the footprint of a whole site, defined as the sum of all of the OUs and the current understanding of the full extent of contamination

Please let me know

Dear Sir or Madam,

I hope this message finds you well.

This is Aileen Tan from REACH24H Consulting Group. Recently we plan to apply for a Quaternary ammonium disinfectant wipes registration to EPA, we would like to all data matrix for the product with Quaternary ammonium, respectively, there are CLOROX EVEREST (EPA Registration Number: 5813-73), STRIPES (EPA Registration Number: 5813-96), Clorox Disinfecting Wipes (EPA Registration Number: 5813-79), BACKSPIN NO-RINSE FCSS (EPA Registration Number: 9480-13), STEPAN WIPE ANY HARD SURFACE (EPA Registration Number: 1839-221) and DETSAN24(EPA Registration Number: 83614-1)

Could you please send the data matrix documents for that registration to me? So that we could figure out which data we could cite.

Thank you very much and looking forward for your feedback.

Kind regards,
Aileen

This is a request for records under the Freedom of Information Act (5 U.S.C. Â§ 552 and the Privacy Act, 5 U.S.C. Â§ 552a. This request should be considered under both statutes to maximize the release of records.

I am requesting any slide deck used during the June 2020 Scientific Integrity Annual Meeting at the Environmental Protection Agency, as well as the recording of the meeting, if it exists, and the meeting minutes.

If you have any questions about this request, please contact me by phone at (914) 275-5607.

In responses to previous FOIA requests, I have received EPA's congressional correspondence logs that identify specific pieces of correspondence between EPA and members of Congress by control number and congressional office. I am now requesting specific pieces of correspondence identified in those correspondence logs by control number and congressional office. Please include attachments, enclosures or any other documents that were provided with the piece(s) of correspondence in its original form.

In addition, please provide all direct agency responses to the requested piece(s) of correspondence.

I request the following piece(s) of correspondence listed by control number and congressional office:

This request is made on behalf of myself under the Freedom of Information Act (â€œFOIAâ€) 5 U.S.C. Â§ 552.

I am currently a developmental neurotoxicologist and private citizen working on a project that aims to support the transition from animal-based testing to the use of alternative non-animal testing methods for assessing the potential developmental neurotoxicity hazards of chemicals. To this end, the goal of my project is to: 1) facilitate the development of non-animal alternative models for development neurotoxicity by informing the comparison to in vivo results; and, 2) make this data publicly available by publication in a peer reviewed journal or other publicly accessible format. I note that this goal is in line with the Administrator Wheelerâ€™s statement on 09/10/2019 to reduce animal testing by 30% in 2025.

Subsequent to my previous request (FOIA request EPA-2020-003946) for all Developmental Neurotoxicity Studies that have been submitted to the Office of Pesticide Products, I am now requesting copies of the Data Evaluation Records/Reviews for the specific studies in the attached. I have provided both an MRID number as well as a Citation Reference.

EWG is requesting an electronic copy of all chemical and microbial contaminant data obtained in compliance and non-compliance testing of public water supplies for samples taken between 2010 and 2020 in all tribal lands under EPA region 1. If you have any questions, please call me at 682-552-4516 or email me at uloma.uche@ewg.org.

Data Requested:

Contaminant monitoring results for raw/source and finished water including detections, non-detects, and results below the level of detection. Each result record should include sample identification, water supplier identification, sampling date, contaminant name, contaminant concentration, units, qualifiers, sampling location (e.g. well name or intake designator), type of water sampled (e.g. raw/source or finished), test method, and any other available sampling designator (e.g. distribution system or point of entry).

System information (PWS ID, system name, address, PWS type (community, non-community, etc.), population served, primary source (GW, SW, etc), city & county served, and percentages of ground/surface water or purchased ground/surface water (if available).

Please include at least the following information. If it is easier to not limit the data dump, please do so to hasten the process.

- water suppliers including community, non-transient non-community, and transient non-community water suppliers

- time span for samples taken in 2010 - 2020

- contaminants including regulated and unregulated chemical and microbial contaminants (including inorganics, organics, radionuclides, coliform, compliance testing programs, unregulated contaminant monitoring programs, and any other programs that have generated chemical and microbial test data for public water supplies)

I am trying to find any information about this Business, including but not limited to its Owners/Operators/Shareholders, and complaints that may have been filed against Treeco Tree Services aka "Green Tree Services" and its owners/operators/shareholders.

Dear EPA FOIA officer:

This is a request under the Freedom of Information Act.

I request that a copy of documents containing the following information be provided to me:

-Warning letters, Notice of Violations, field citations, enforcement actions, settlements, and compliance orders involving the Sloss/Walter/ERP/Bluestone coke facility in Birmingham, Alabama.

-Warning letters, Notice of Violations, field citations, enforcement actions, settlements, and compliance orders involving the ABC coke facility in Tarrant, Alabama.

I am willing to pay fees for this request up to a maximum of \$100. If you estimate that the fees will exceed this limit, please inform me first.

I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the activities of the government's effort to control air pollution and is not primarily in my commercial interest.

Thank you for your consideration of this request.
